This is to inform you of the process that is needed to have elections on the utahassembly.org website.

1. If you DO NOT have an account then -
2. You will need to go to the website and in the menu Click on “UA Sign Up”.
3. Fill in the blanks with your information. Email address is a must if you want to participate.
4. Make sure you enter your County as the election program will handle County elections as well as State-wide elections.
5. Your account for the website will be validated by website Admin. As long as you have had your paperwork for being an American State National at least.
6. Once your account is validated you can Sign-In to the website.

7. If you already have an Account then just Sign-In.
8. When there is an election you can Sign-In to the website and the “County Elections” menu tab and the “State Elections” menu tab will be available.
9. You will be able to view the current election of American State Citizens to any of the State or County Offices.
10. You can select either “Yes” or “No” for any and all existing nominations that are being proposed.
11. Once you have Clicked on your choice the program will save that record in the database. **THAT IS YOUR RECORD!** It belongs to you and only you.
12. The program will send you an email of the proposal/nomination with your choice of either “Yes” or “No” .
13. A carbon copy (cc) of that email is sent to the The Utah Assembly Elections Clerk and Recorder.
14. Now you can Sign-In to the website and view you past voting record.
15. The office of The Utah Assembly Elections Clerk and Recorder is occupied with only those who are ASCs and have an Affirmation of Honor like any other office for The Utah Assembly.
16. This would be subject to a specific common law of operation.

17. This office would be subject to Grand Jury investigation with indictment, trial, judgement and punishment by a common law jury of 12 impartial jurors.
18. An over-site committee of at least 3 active ASCs needs to be appointed to oversee the elections. (Election Committed)
19. Any discrepancies between your election email and your record on the website database will be investigated by The Utah Assembly Elections Clerk and Recorder Office.
20. If any discrepancy is detected on your end between the email and your record on the website database you must contact the Office of The Utah Assembly Elections Clerk and Recorder Office and they will begin investigation.
21. The Utah Assembly Elections Clerk and Recorder Office will process the investigation. Protocols need to be established.
22. The Utah Assembly will specify the length of time when Elections will be open and when they will close. Notification will start just after nomination(s) have been made and Election results will be broadcast at the next Utah Assembly meeting.
23. Candidates must be present in the Assembly meeting to be nominated. (The issue of whether the candidates need to be in person or via Zoom needs to be decided by The Utah Assembly.)
24. Candidates have the option of presenting a Bio of themselves and having it posted in an Assembly wide email.

FYI: The process of elections in the de facto government does not connect your vote to you. This is where the weakness is. The Utah Assembly Elections is accountable to We the People of Utah.

Having a record that is tied specifically to you in the database offers higher security to the elections process.

To increase the security on the utahassembly.org website it is recommended that The Utah Assembly purchase a “Secured Socket Layer” i.e. (<https://www...>) as opposed to (<http://www...>). This runs around \$50 to \$100 a year. That needs to be verified.
